

**Update: SKOPE fully operational
3pm Thursday 3 March 2011**

Thanks to the hard work and support of our staff and contractors over recent days, we wish to advise SKOPE Industries Limited is now fully operational.

An independent engineering assessment on Tuesday confirmed the offices, factory, machinery and stock have in no way been impacted by the Tuesday 22 February 2011 earthquake.

We wish to advise:

- Our supply chain has been unaffected
- All logistics are in place – local ports, airports and transportation are all operational
- No damage to any finished goods or spare parts
- We are committed to meeting our standard lead time commitments and will air freight orders in order to meet these timeframes where required
- We currently have spare capacity available in the production line

SKOPE Customer Services are fully operational and open for any orders or any assistance you may require.

We will continue to update you over the coming days and weeks via this webpage and other forms of communication.
