

Flexible storage capacity.  
Expand or alter to suit  
changing circumstances.

\*External sizing options shown

#### Vertical space saving storage

MISA's room options provide a high storage and shelving capacity while maintaining a low foot print or surface area.

#### Ideal installation for tight spaces

MISA modular panel system can be constructed inside of the room itself, therefore requiring less physical space during construction.

#### A solution for large projects

A MISA BETA Industrial Panel system is available for larger projects like; mining, cold store and supermarket industry sectors. MISA is an ISO 9001 Certified Quality System.

#### Comprehensive options to suit almost any location

The MISA system is available in three widths (400mm, 800mm and 1200mm) and four heights (2m, 2.4m, 2.8m and 3.2m).

#### Fast-fit assembly system— saves time and money

MISA's patented Fast-Fit twin hook Camlock system makes rooms easy to assemble and disassemble. Two qualified installers can assemble a small room in 2.5 hours, providing significant installation savings.

#### Useful door extras — with options to suit your specific needs

MISA doors have a key lock fitted, an internal safety release, illuminated handles and a safety alarm bell as standard. MISA freezer doors also have a heated doorframe, sill, port relief valve and electrical junction box for ease of connection.

#### Heavy duty floor — durable and long lasting

MISA insulated roll in floor systems are made from reinforced galvanised steel with an anti-slip coating, capable of a 4000kg/m2 static load durability and 350kg roll in trolley.

#### High ambient temperature — ideal for difficult climatic conditions

MISA can be fitted with a tropical 43°C ambient rated and special designed integral MISA Freeblock condensing unit.

#### Improved efficiency — real savings on power

MISA 100mm and 60mm polyurethane panels (for both cool and freezer rooms) are up to 50% more efficient when operating in 43°C and 75% RH ambient, compared to 75mm and 80mm EPS panel systems.

**Corner cool rooms** - The new 45° corner rooms are the first modular Camlock system which can be angled, allowing for maximisation of space.

#### Standard 100mm options

Model	Internal Size (cm³)	External Dimensions (mm)		
		Width	Depth	Height
KLC1AF2M	3.07	1430	1430	2230
KLC2AF2M	4.06	1430	1830	2230
KLC3BF2M	6.71	1830	2230	2230
KLC3CF2M	8.37	2230	2230	2230
KLC4CF2M	10.05	2630	2230	2230
KLC4DF2M	11.99	2630	2630	2230
KLC5DF2M	13.95	3030	2630	2230
KLC5EF2M	16.25	3030	3030	2230
KLC6EF2M	18.56	3430	3030	2230

#### Standard 60mm options (New Zealand only)

Model	Internal Size (cm³)	External Dimensions (mm)		
		Width	Depth	Height
KLC 1A F 2M-6	3.07	1350	1350	2150
KLC 2A F 2M-6	4.06	1350	1750	2150
KLC 3B F 2M-6	6.71	1750	2150	2150
KLC 3C F 2M-6	8.37	2150	2150	2150
KLC 4C F 2M-6	10.05	2550	2150	2150
KLC 4D F 2M-6	11.99	2550	2550	2150
KLC 5D F 2M-6	13.95	2950	2550	2150
KLC 5E F 2M-6	16.25	2950	2950	2150
KLC 6E F 2M-6	18.56	3350	2950	2150

Models listed are 2m high (internal). They are also available in 2.4m heights, and in freezer room systems. Examples are standard options. More options are available.

### MISA Freeblock

MISA Drop-In Unit

Freeblock Maxi

FB3+ Slim

#### Integral Refrigeration - MISA Drop-in units

The MISA cool and freezer rooms can be fitted with a tropical 43°C ambient rated and special designed integral MISA Freeblock condensing unit.

MISA Freeblock condensing unit and evaporator is constructed in one MVS panel that easily locks into place in a matter of minutes using the MISA Camlock system. The Freeblock/Drop In unit comes with a hermetic compressor, air condenser which is suitable for ambient temperature from 0°C to 43°C, digital controller, light and dissipation tray.

These have been designed and built by MISA.

MISA Patent Camlock System

#### Integral FB3+ & Maxi Freeblock range

The new FB3+ Slim offers higher performance with restricted dimensions. The new PLUS range is more efficient at reaching required temperatures.

#### Remote Refrigeration

The MISA cool and freezer rooms can also be fitted with tropical 43°C ambient rated remote operated condensing units. Options of the MISA SPLIT and MISA MSG SPLIT remote systems are available on request.

#### Options

Strip curtains, glass door inserts, hinge door, hatch doors and new easy glide sliding doors.

Flooring P350 standard, P800, P1000 and stainless steel options

**Warranty**  
2 year protection\*  
\*2 year parts & 2 year labour if installed by a SKOPE approved MISA installer

**HACCP Certified**  
MISA Commercial Cold Rooms are certified as food safe refrigeration units that are suitable for use in facilities that operate in accordance with a HACCP based Food Safety Programme.

SKOPE®

SKOPE PREMIUM RANGE

# Your guide to MISA modular cool and freezer rooms

With new features and benefits, MISA modular panels are a superior and safe food storage solution.

- New 350kg roll-in trolley weight flooring as standard
- Newly designed easy-glide sliding door
- New semi-rebated door with 600mm, 800mm & 1000mm options
- Newly developed MISA drop-in range
- New touch screen controller
- New FB3+ and Maxi Freeblock range
- New 45° modular corner panels with Camlock system

**misa**

MISA modular cool and freezer rooms are a superior solution for busy environments needing flexible food storage management.

# Take advantage of these superior features.

**New touch screen**  
MISA has introduced a new, easy to use programmable keypad for all Freeblock and Drop-In Units

**Durable and adjustable door hinges**

**Key lock & internal safety release**  
Illuminated handles, manual safety alarm and external door handle with key lock for extra security

**Roll-in floor P350**  
HACCP approved roll-in insulated flooring made from high density reinforced polyurethane, covered with galvanised steel and anti-slip plastic coating (P350 as standard)

**New semi-rebated door**  
Available in three widths (600mm, 800mm and 1000mm)

**Port relief valve and door heater junction box**  
Positioned for easy connection

**2, 3 and 4\* way connecting edges**  
Designed for modular cool room solutions and flexible food storage management

**New internal shelving range**  
Environmentally friendly, 100% thermoplastic material, withstands 400kgs (100kgs per lineal metre)

**Unique hidden 'Z' bracket ceiling support**  
For extra roof and wall support

**Suspension beam\***  
For ceiling support on large rooms

**Internal covered corners and external rounded corners**  
For an easy to clean surface

**Rounded corner cap**  
For easy assembly and disassembly

**Non-modular partition wall\***

**Fully covered 'U' channel**  
for rooms without floor  
Designed to utilise an existing insulated concrete floor by using a high density 'U' channel

**Newly designed easy-glide sliding door**  
800mm opening

**MISA patented edge with integrated coving**  
External rounded and internal covered corners to ensure easy cleaning and food sanitation

**A** External rounded edge  
**B** Polyurethane foam  
**C** Internal covered corner

MISA is an Italian designed cool room solution distributed throughout Australia and New Zealand by SKOPE. These premium Italian modular, polyurethane rooms provide a simple, quick and flexible cool or freezer room solution, and can be supplied to suit any size requirement.

Having been established as a respected brand for over 40 years, MISA has numerous features to benefit any commercial or industrial environment.

**High density MVS patented polyurethane panel system**  
For improved insulation and greater energy efficiency, available in 60mm (in New Zealand only) and 100mm
